ORDINANCE 262

PART 6.1 LIABILITY FOR PAYMENT

Requests for turning on service provided for herein to a residence or commercial establishment shall be made to the Village by the owner or resident of the property to be served, and the person requesting service shall be ultimately responsible for any charges billable to the property. The good faith deposit established from time to time by resolution of the Village Council for residential, commercial/business establishments, and construction companies shall be paid prior to provision of services.

PART 6.2 PAYMENT OF DEPOSIT

All requests for water service shall include a good faith deposit in an amount established from time to time by resolution of the Village Council. This good faith deposit shall be fully refundable to property owners after a minimum of twelve (12) consecutive monthly payments have been timely received, or to all utility customers upon termination of service and payment of all outstanding water and sewer charges. If a customer requesting water service has an outstanding account on another meter, all outstanding and delinquent charges for that other meter must be paid in full at the time the deposit is paid and before water service is connected on the new meter. In the event of the death of a residential customer when no other person lives at the metered residence, the water service shall be turned off and the responsible party must pay the account in full before a refund of the deposit can be made. In the event another person lives at the metered residence, the person assuming responsibility for the account shall immediately submit a new water meter application and pay the good faith deposit for continued water service to the residence. Water service will be discontinued unless a new water meter application and deposit are received.
